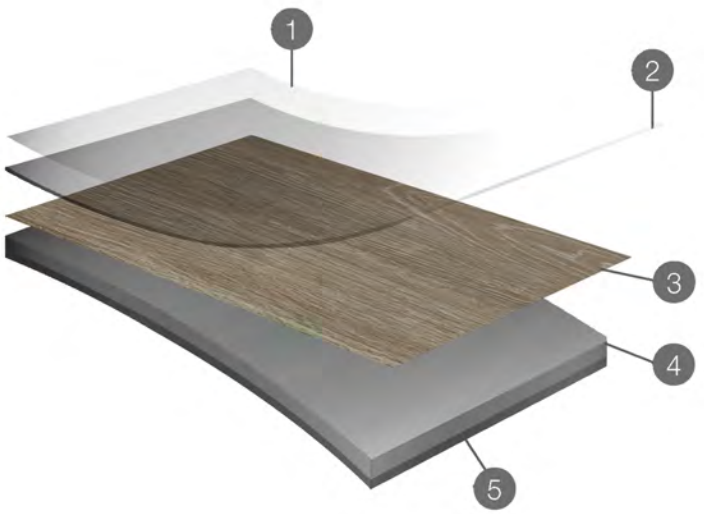
Terrain II



Layered durability

Terrain II's layered construction is engineered for enhanced durability in high demand environments. It features our maintenance friendly ExoGuard+™ finish with more resistance to scratching, staining, and improved cleanability.

1. ExoGuard+™ Finish
Adds resistance to scratching, staining, and abrasion

2. Clear Wear Layer
Protects against premature product aging, available in 12 mil, 20 mil and 30 mil constructions

3. High-Resolution Image
Creates a stunning visual with depth and detail

4. Commercial Core
Provides additional residual indentation performance

5. Commercial Backing
Improves adhesion to the substrate

ExoGuard+™

Terrain II products feature an ExoGuard+™ finish, our industry-leading top coat that meets the highest performance standards defined by strict scratch, stain and cleanability requirements. ExoGuard+™ is a true polish-optional top coat that can be installed without polishing, reducing maintenance costs. It requires no additional prep work if a polished look is desired.

Improved Cleanability

The new ExoGuard+™ provides industry-leading stain resistance and improved cleanability for use in demanding environments.

Superior Durability

ExoGuard+™ provides excellent stain, scratching and abrasion resistance.

Made in the USA

Terrain II is Shaw Contract's first luxury vinyl tile made in the USA.

Static & Rolling Loads

Terrain II performs in environments with heavy static and heavy rolling loads per ASTM test methods.

Polish-Optional Reduces Cost

ExoGuard+™ is a polish-optional finish that can reduce the cost of annual maintenance and it requires no coating prep work, if a polished look is desired.

Increased Pattern Variation

Terrain II features extended pattern repeats resulting in increased plank variations to replicate the look of real wood.

Recommended Applications 12 mil

Ideal for Light Commercial Environments

Senior Living | Light Retail | Multi-Family

	Light	Moderate	Heavy

Materials & Resources
IEQ - Floorscore® IAQ Certification

Phthalate-Free
Manufactured to be truly free of ortho-phthalates

Certified for low VOCs

Solar Energy
With the largest rooftop-mounted photovoltaic solar array in the southeastern U.S., Shaw generates 1 megawatt of power per year-- the equivalent to removing 198 passenger vehicles from the road.

Water Use
For every 1 pound of finished product, Shaw has reduced the amount of water required to produce it by 36%.

Carbon Disclosure Project
As global citizens, Shaw encourages transparent discussion surrounding our carbon footprint. Each year, we submit our third-party verified carbon emissions to the CDP.

Color Variations

Shade and texture variation is inherent in all wood visual products. It can vary slightly or significantly from piece to piece within a color. V1 shade variation has little or no variation from piece to piece. V4 will have a large variation in color and/or texture.
